**CAN PERIPHERAL
NERVES HEAL?**

YES!

Nerve cells need two things to heal:

1. FUEL

- Electromagnetic Infrared
- Advanced Nutrition

2. ACTIVATION

- Electrostimulation

**THIS MAKES THE PERFECT
1-2 PUNCH FOR NERVE
REGENERATION**

**OUR PROPRIETARY TREATMENT
PROGRAM CONSISTS OF
4 VITAL COMPONENTS**

#1 ELECTROMAGNETIC INFRARED THERAPY

One of the treatment technologies we use to increase blood flow and repair the nerve is our Low-Level Light Therapy (LLLT). This home therapy technology has 22 peer-reviewed studies with a 97% success rate with peripheral neuropathy.

#2 ELECTROSTIMULATION

We use state of the art digital electro therapeutic stimulation to assist in the growth of the nerves called Nerve Re-Education. The results of this home therapy device can be immediate in both pain relief and restoration of normal sensation.

#3 ADVANCED NUTRITION THERAPY

Proper nutrition in support of our other VITAL COMPONENTS is vital for optimal tissue and nerve repair. Our Advanced Nutritional Therapies have been designed to accelerate the healing process by affecting the complex processes of inflammation, blood flow, and bioavailable nitric oxide.

#4 IN-CLINIC VISITS & ONLINE EDUCATION

In synergy with your home infrared electromagnetic & electrostimulation therapy along with neuropathy education, you will visit the office 1x per week for our in-clinic protocol. Each vital component is equally important for patient results.

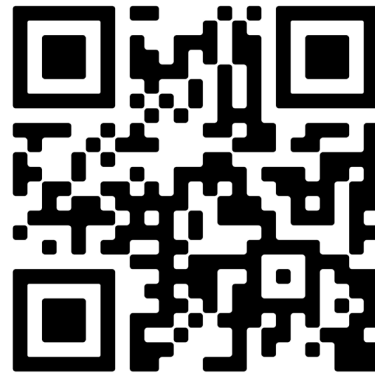

**WE PROVIDE A SAFE
AND EFFECTIVE NEW
CHOICE FOR NEUROPATHY
SUFFERERS.**

We are excited to offer a **NEW** non-invasive neuropathy protocol that combines the best cutting-edge treatments to help resolve neuropathy suffering.

Using our comprehensive examination techniques, we will determine if you are a candidate for our neuropathy relief program.

If you are a candidate, we will discuss our best recommendations for a plan of care treatment that best serves your unique circumstances.
We can't wait to meet you!
